DEVIXO SOLUTIONS

INTERNSHIP PROJECT REPORT

Project Title: Personal Portfolio Website

Internship Domain: Web Development

Task Number: 1

Student Name: Abubakar Siddique

Organization: Devixo Solutions

Technologies Used: HTML5, CSS3

GitHub Repository:
https://github.com/abubakar136/personal-portfolio

Submission Date: 11/10/2026

1. Objective

The objective of this project is to design and develop a personal portfolio website using HTML5 and CSS3. The website presents personal information, educational background, technical skills, projects, and contact information in a structured format. This project also aims to improve practical skills in web page development, website styling, and project organization.

2. Problem Statement

A personal portfolio provides a convenient way to present an individual's background, education, skills, and projects in one place. Without an organized online portfolio, it can be difficult to showcase this information professionally.

This project addresses the problem by developing a multi-page personal portfolio website with separate pages for Home, About, Education, Skills, Projects, and Contact. The website organizes information in a clear structure and uses CSS to improve its presentation and readability.

3. Technologies Used

HTML5: HTML5 was used to create the structure of the website and organize content into separate web pages.

CSS3: CSS3 was used to style the website, including its layout, colors, typography, spacing, and overall presentation.

Visual Studio Code: Visual Studio Code was used to write and edit the project's source code.

Git: Git was used for version control and tracking changes to the project.

GitHub: GitHub was used to host the project repository and make the source code accessible online.

4. Implementation Steps

Step 1: Project Planning

The project was planned as a personal portfolio website to present personal information, education, technical skills, projects, and contact details.

Step 2: Project Setup

A project folder was created in Visual Studio Code to organize the HTML files, CSS stylesheet, and image assets.

Step 3: HTML Development

HTML was used to create separate pages for Home, About, Education, Skills, Projects, and Contact.

Step 4: CSS Styling

The `style.css` file was used to apply styling to the website and improve the presentation of its content.

Step 5: Website Testing

The website was opened in a web browser to check that the pages displayed correctly.

Step 6: GitHub Repository

Git was used to commit the project files, and the repository was uploaded to GitHub.

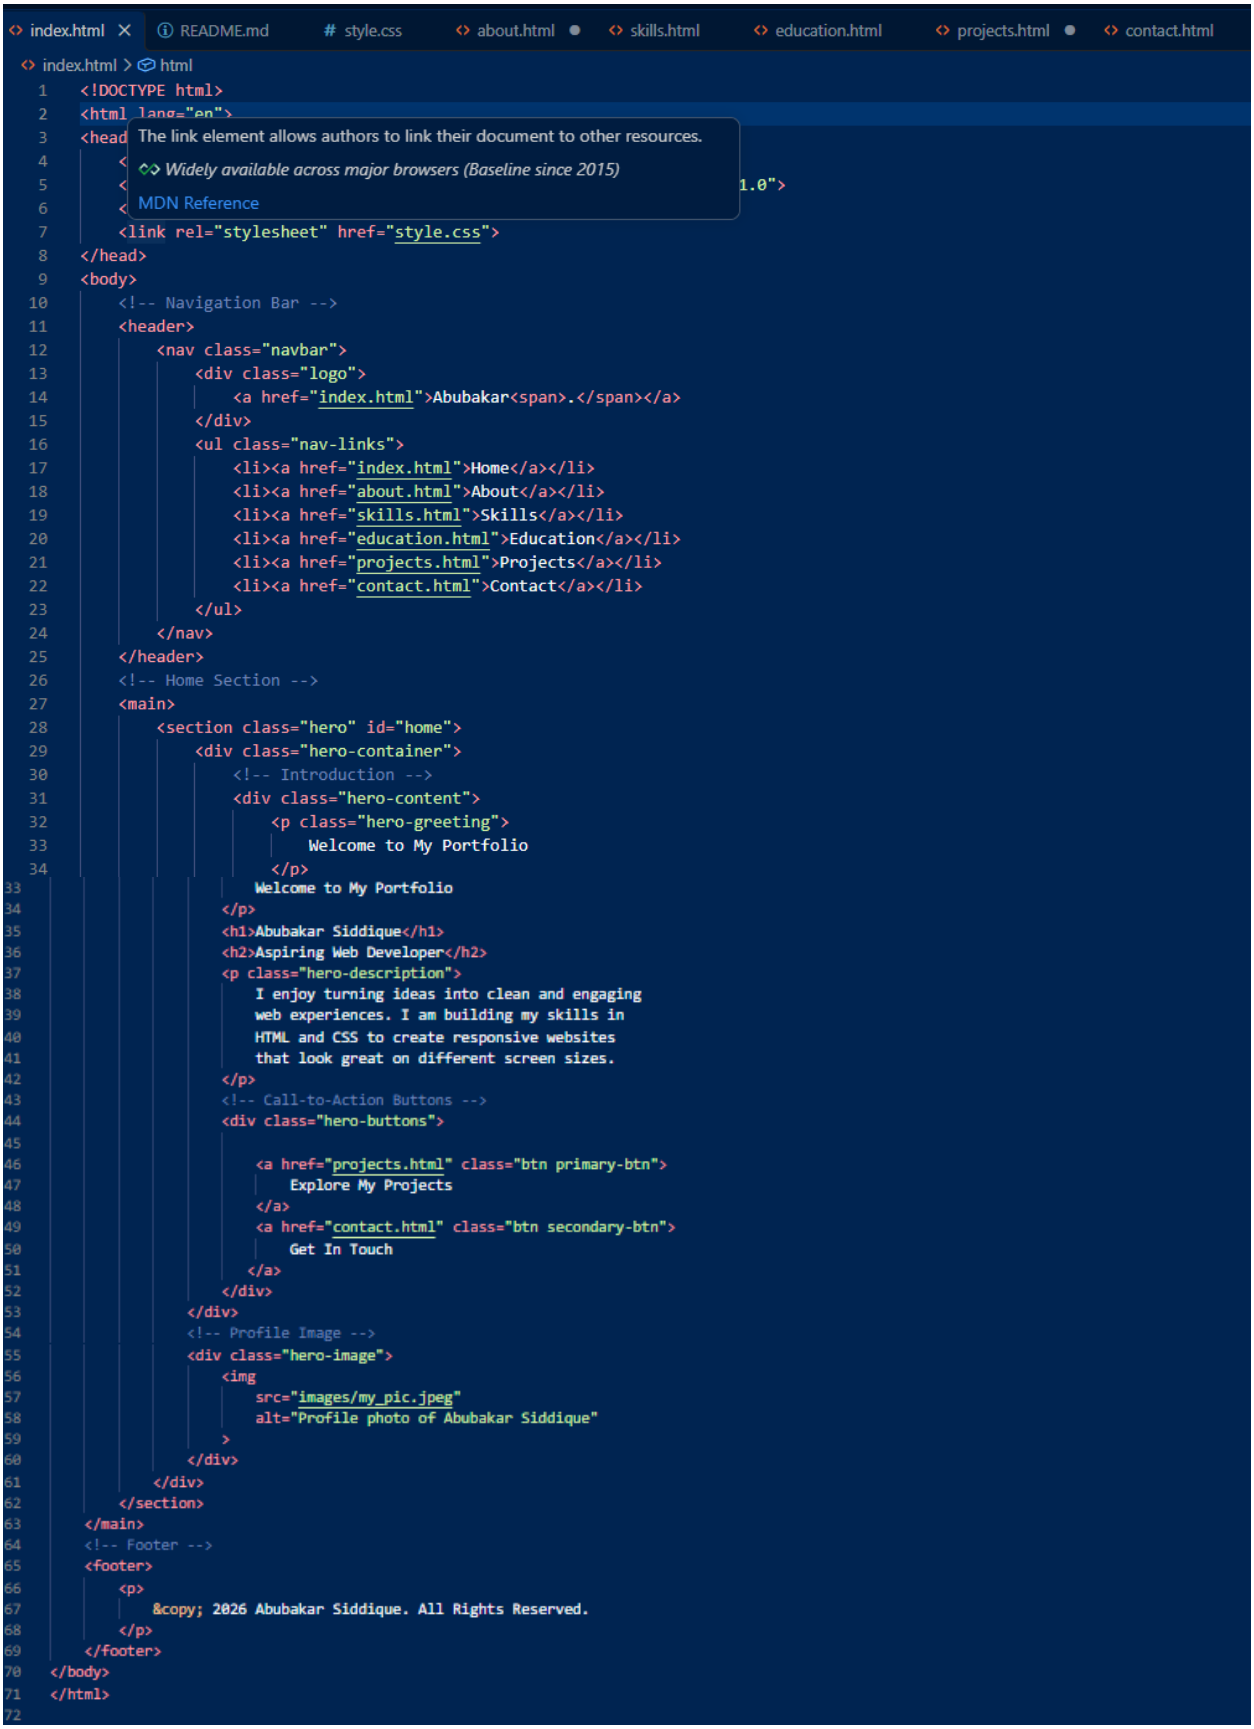

Step 7: Project Documentation

A `README.md` file was added to explain the project, its features, technologies, and instructions for running it

5. Code Screenshots and Explanations

5.1 Home Page (index.html)

The Home page is the main entry point of the portfolio website. Its HTML code defines the page structure and the content displayed to visitors.

index.html
README.md
style.css
about.html
skills.html
education.html
projects.html
contact.html
index.html > html
The link element allows authors to link their document to other resources.
Widely available across major browsers (Baseline since 2015)

5.2 About Page (about.html)

The About page presents personal information about the portfolio owner. Its HTML code organizes the information into appropriate page elements.

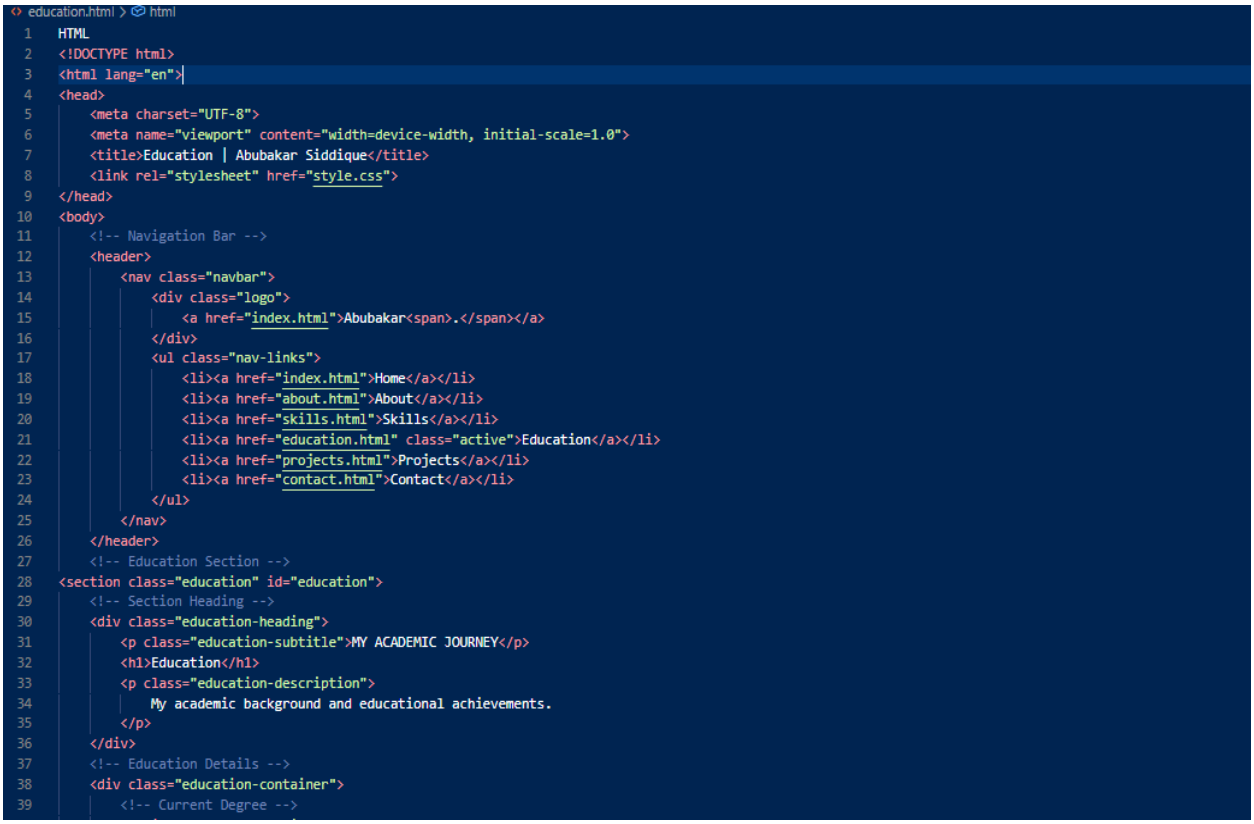

```
                <!-- Personal Introduction -->
                <div class="about-content">
                    <h2>Hello, I'm Abubakar Siddique</h2>
                    <p>
                        I am an aspiring web developer interested in
                        creating modern, responsive, and user-friendly
                        websites.
                    </p>
                    <!-- Academic Background -->
                    <div class="about-info">
                        <h3>Academic Background</h3>
                        <p>
                            I am currently developing my academic and
                            technical knowledge through my studies.
                        </p>
                    </div>
                    <!-- Career Interests -->
                    <div class="about-info">
                        <h3>Career Interests</h3>
                        <p>
                            My career interests include web development,
                            frontend development, and software development.
                        </p>

Figure 6: Contact Page HTML Code

5.7 CSS Styling (style.css)

The CSS stylesheet controls the visual presentation of the portfolio pages, including layout, spacing, typography, and other styling properties.

`

style.css > ...

```css
/* styling for the entire page */
* {
    margin: 0;
    padding: 0;
    box-sizing: border-box;
}
html {
    scroll-behavior: smooth;
}
body {
    font-family: Arial, Helvetica, sans-serif;
    background-color: #f7f5ef;
    color: #202c28;
    line-height: 1.7;
}
img {
    max-width: 100%;
}
/*Navigation bar styling*/
header {
    width: 100%;
    position: fixed;
    top: 0;
    left: 0;
    z-index: 1000;
    background-color: #203b30;
    box-shadow: 0 4px 18px rgba(20, 40, 30, 0.12);
}
.navbar {
    max-width: 1200px;
    min-height: 78px;
    margin: auto;
    padding: 14px 30px;
    display: flex;
    justify-content: space-between;
    align-items: center;
    gap: 25px;
}
```

```css
header {
    width: 100%;
    position: fixed;
    top: 0;
    left: 0;
    z-index: 1000;
    background-color: #203b30;
    box-shadow: 0 4px 18px rgba(20, 40, 30, 0.12);
}
.navbar {
    max-width: 1200px;
    min-height: 78px;
    margin: auto;
    padding: 14px 30px;
    display: flex;
    justify-content: space-between;
    align-items: center;
    gap: 25px;
}
/* Logo */
.logo a {
    color: #ffffff;
    text-decoration: none;
    font-size: 27px;
    font-weight: 800;
    letter-spacing: -1px;
    white-space: nowrap;
}
.logo a span {
    color: #a8d5b5;
}
/* Navigation Links */
.nav-links {
    display: flex;
    align-items: center;
    justify-content: center;
    gap: 8px;
    list-style: none;
}
```

About CSS

```css
.about-content h2 {
    color: #202c28;
    font-size: 30px;
    line-height: 1.4;
    margin-bottom: 18px;
}
.about-content > p {
    color: #65716a;
    font-size: 16px;
    margin-bottom: 22px;
}
/* About Information Cards */
.about-info {
    padding: 17px 20px;
    margin-bottom: 14px;

    background-color: #ffffff;
    border: 1px solid #e5e5dc;
    border-left: 4px solid #528568;
    border-radius: 5px;
    transition: transform 0.3s ease,
                box-shadow 0.3s ease;
}
.about-info:hover {
    transform: translateX(5px);
    box-shadow: 0 5px 18px rgba(32, 44, 40, 0.07);
}
.about-info h3 {
    color: #528568;
    font-size: 17px;
    margin-bottom: 5px;
}
.about-info p {
    color: #65716a;
    font-size: 14px;
}
```

```css
/* About Page style */
.about-container {
    display: grid;
    grid-template-columns: 0.8fr 1.2fr;
    align-items: start;
    gap: 65px;
}
/* About Image */
.about-image {
    width: 100%;
    max-width: 340px;
    height: 430px;
    padding: 12px;
    background-color: #e5eee5;
    border-radius: 12px;
    border-bottom: 5px solid #528568;
    transition: transform 0.3s ease;
}
.about-image:hover {
    transform: translateY(-5px);
}
.about-image img {
    display: block;
    width: 100%;
    height: 100%;
    object-fit: cover;
    object-position: center top;
    border-radius: 7px;
}
/* About Text */
.about-content h2 {
    color: #202c28;
    font-size: 30px;
    line-height: 1.4;
```

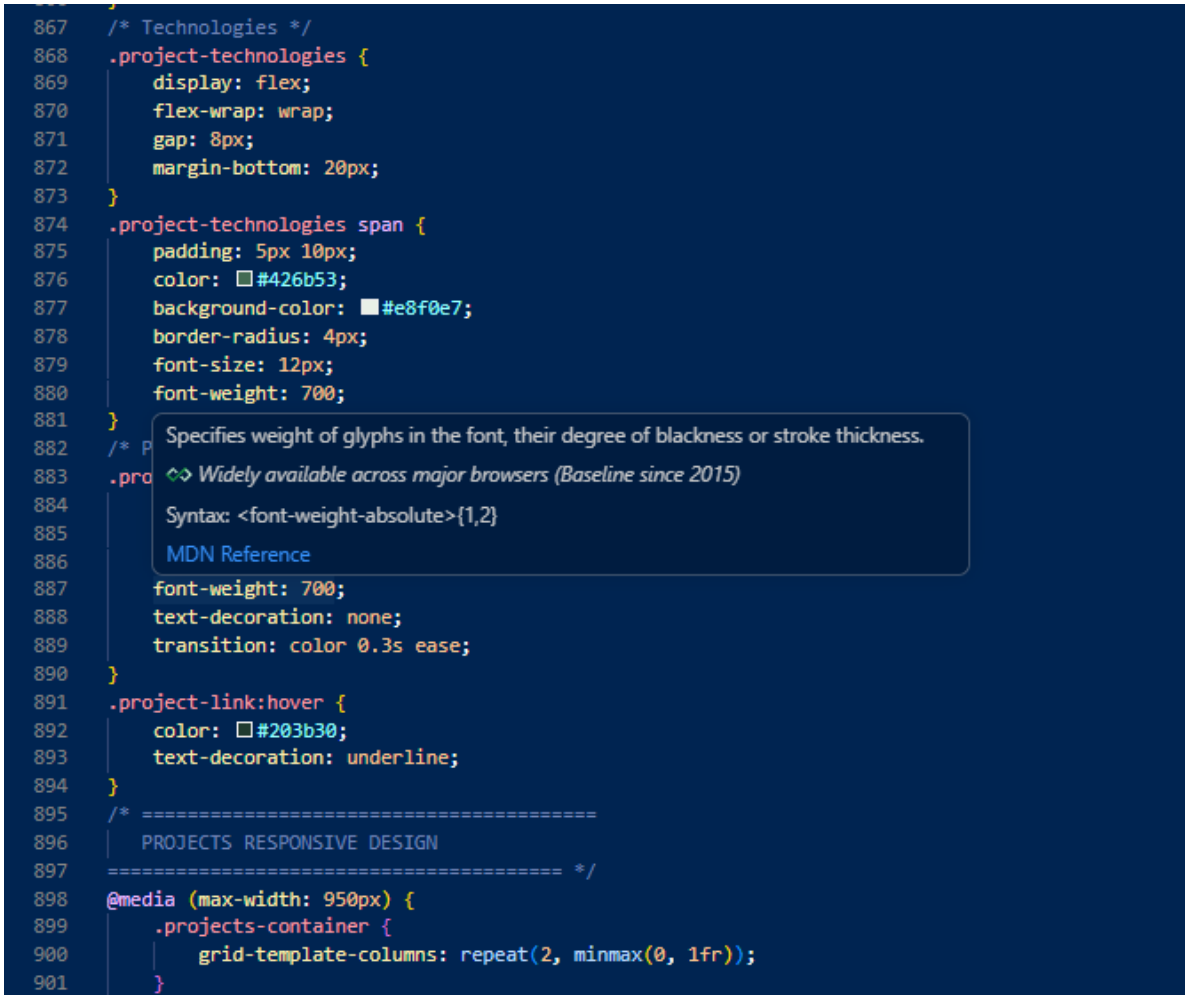

Education CSS

```css
}/* ====================================
   EDUCATION PAGE
==================================== */
.education {
    max-width: 1000px;
    min-height: 100vh;
    margin: auto;
    padding: 140px 30px 75px;
}
/* Education Heading */
.education-heading {
    text-align: center;
    margin-bottom: 55px;
}
.education-subtitle {
    color: #528568;
    font-size: 13px;
    font-weight: 800;
    letter-spacing: 3px;
    margin-bottom: 10px;
}
.education-heading h1 {
    color: #202c28;
    font-size: 46px;
    margin-bottom: 12px;
}
.education-description {
    color: #65716a;
    font-size: 16px;
}
/* Education Timeline Container */
.education-container {
    position: relative;
    max-width: 800px;
    margin: auto;
    padding-left: 35px;
    border-left: 2px solid #b8d1bd;
```

```css
/* Education Card */
.education-card {
    position: relative;
    margin-bottom: 30px;
    padding: 28px;
    background-color: #ffffff;
    border: 1px solid #e4e5db;
    border-radius: 8px;
    transition: transform 0.3s ease,
                box-shadow 0.3s ease,
                border-color 0.3s ease;
}
.education-card:hover {
    transform: translateY(-5px);
    border-color: #b8d1bd;
    box-shadow: 0 10px 25px rgba(32, 59, 48, 0.08);
}
/* Timeline Marker */
.education-marker {
    position: absolute;
    top: 30px;
    left: -44px;

    width: 16px;
    height: 16px;
    background-color: #528568;
    border: 4px solid #f7f5ef;
    border-radius: 50%;
}
/* Study Period */
.education-period {
    display: inline-block;
    color: #426b53;
    background-color: #e8f0e7;
    padding: 5px 12px;
    margin-bottom: 15px;
    border-radius: 4px;
```

Project CSS

```
867  /* Technologies */
868  .project-technologies {
869      display: flex;
870      flex-wrap: wrap;
871      gap: 8px;
872      margin-bottom: 20px;
873  }
874  .project-technologies span {
875      padding: 5px 10px;
876      color: #426b53;
877      background-color: #e8f0e7;
878      border-radius: 4px;
879      font-size: 12px;
880      font-weight: 700;
881  }
882  /* P
883  .pro
884
885
886
887      font-weight: 700;
888      text-decoration: none;
889      transition: color 0.3s ease;
890  }
891  .project-link:hover {
892      color: #203b30;
893      text-decoration: underline;
894  }
895  /* ====================================
896     PROJECTS RESPONSIVE DESIGN
897  ==================================== */
898  @media (max-width: 950px) {
899      .projects-container {
900          grid-template-columns: repeat(2, minmax(0, 1fr));
901      }
```

Specifies weight of glyphs in the font, their degree of blackness or stroke thickness.

Widely available across major browsers (Baseline since 2015)

Syntax: <font-weight-absolute>{1,2}

MDN Reference

```css
/* Project Card */
.project-card {
    overflow: hidden;
    display: flex;
    flex-direction: column;
    background-color: #ffffff;
    border: 1px solid #e4e5db;
    border-radius: 10px;
    transition: transform 0.3s ease,
                box-shadow 0.3s ease,
                border-color 0.3s ease;
}
.project-card:hover {
    transform: translateY(-7px);

6. Output Screenshots and Explanations

6.1 Home Page Output

The Home page is the main entry point of the portfolio website. It introduces the website and provides navigation to other pages.

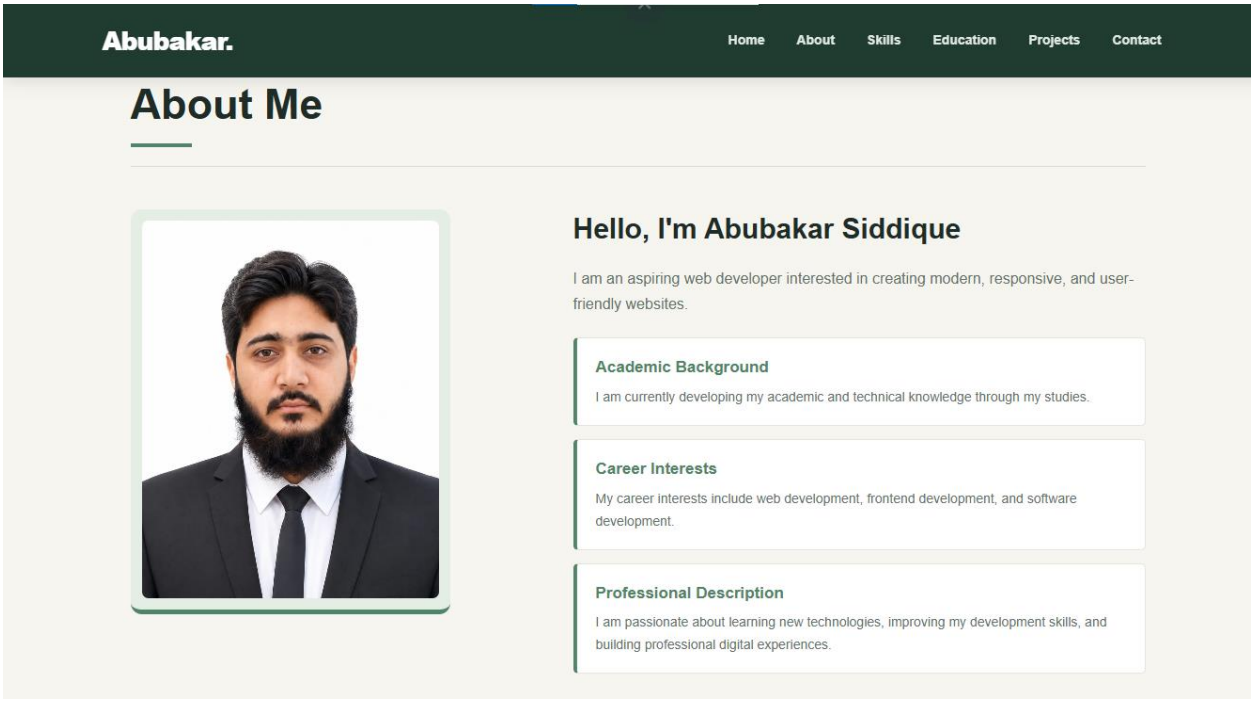

.

Figure 8: Home Page Output

6.2 About Page Output

The About page presents personal information about the portfolio owner in an organized format.

.

Figure 9: About Page Output

6.3 Education Page Output

The Education page displays the educational background included in the portfolio.

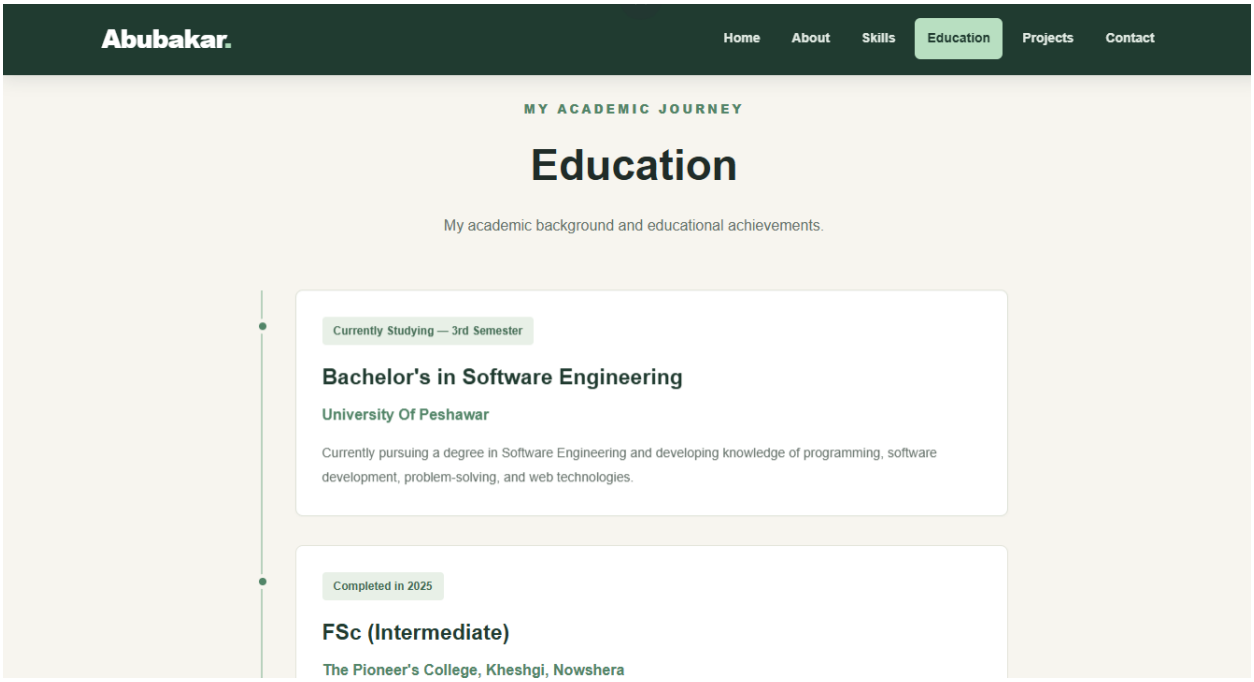

Figure 10: Education Page Output

6.4 Skills Page Output

The Skills page presents the skills included in the portfolio.

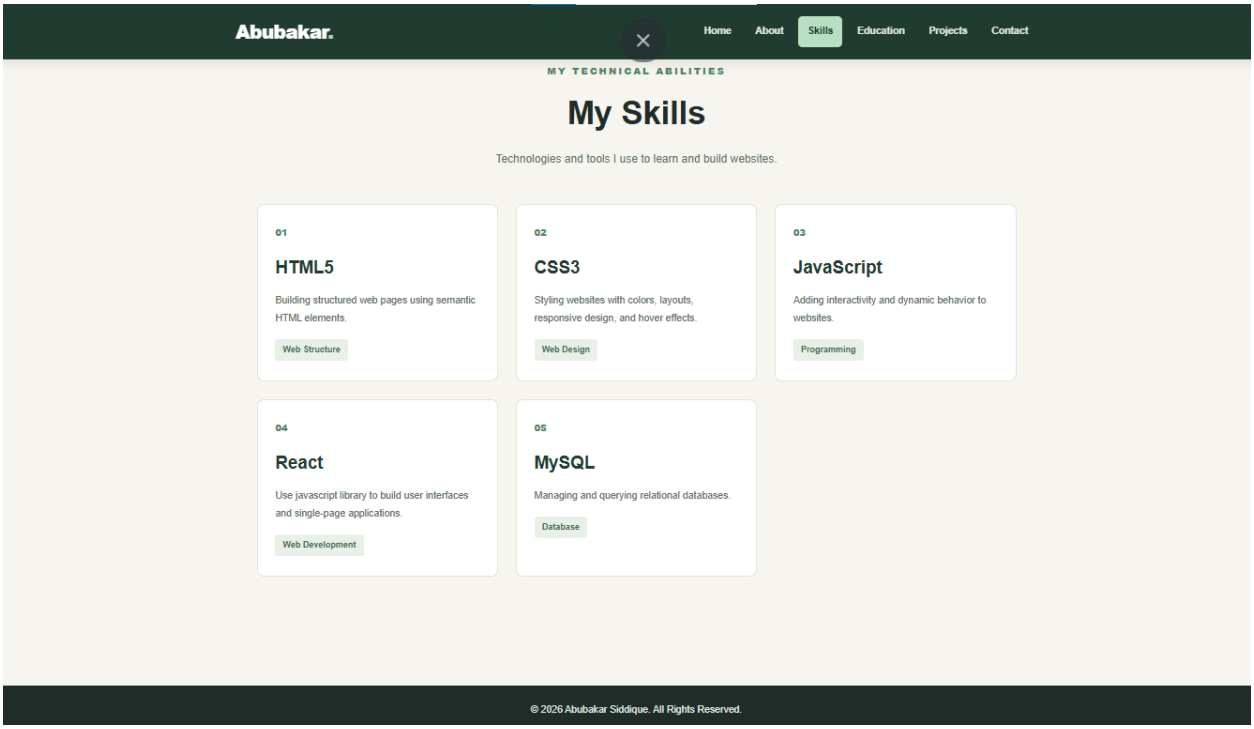

Figure 11: Skills Page Output

6.5 Projects Page Output

The Projects page displays the projects included in the portfolio.

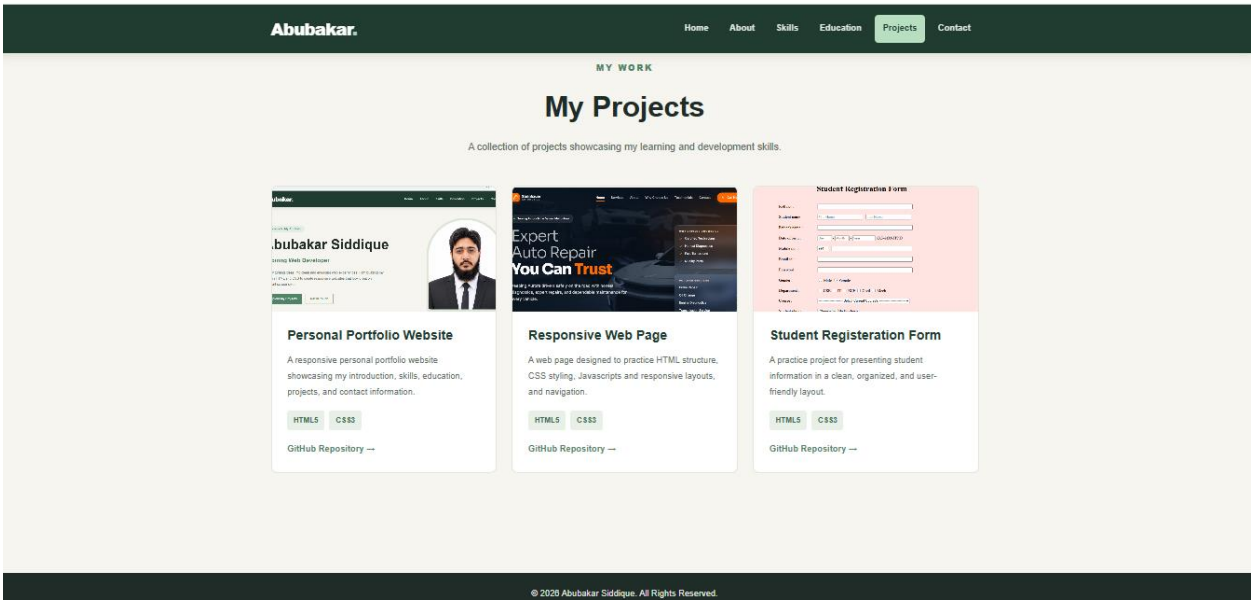

Figure 12: Projects Page Output

6.6 Contact Page Output

The Contact page displays the contact information or contact options provided in the portfolio.

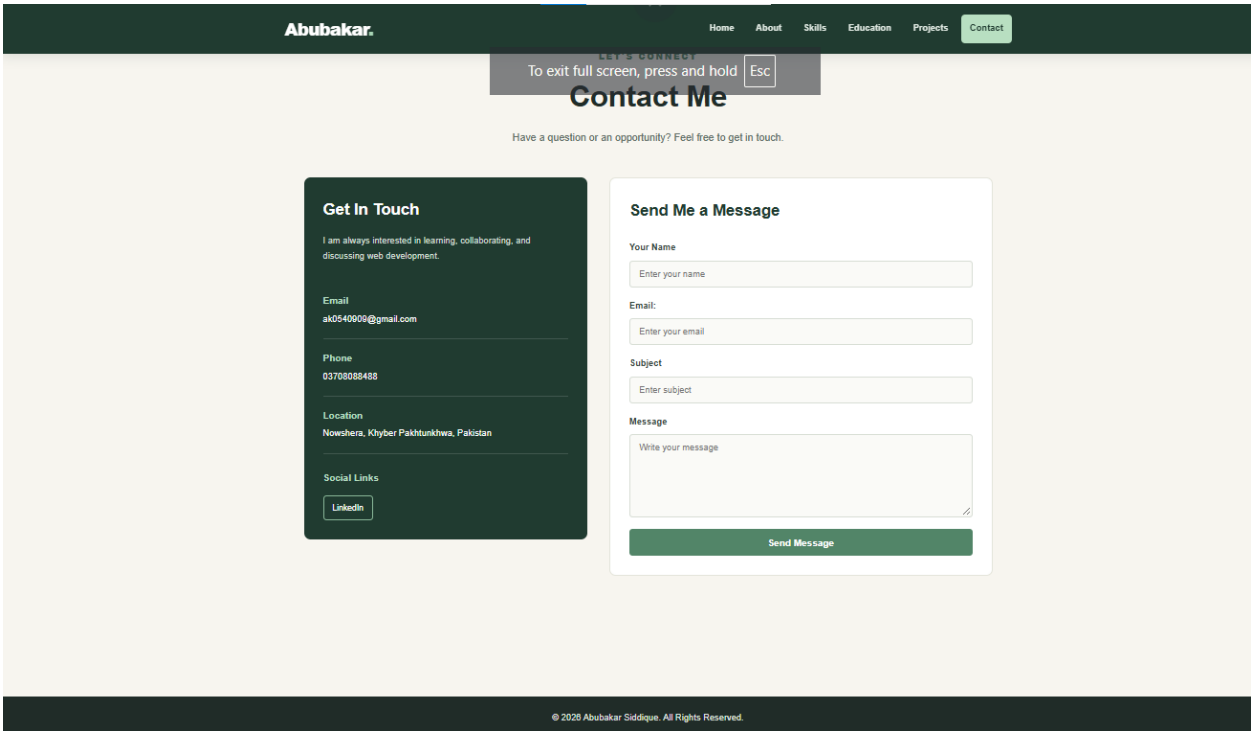

Figure 13: Contact Page Output

7. Challenges Faced

During the development of the personal portfolio website, I worked on organizing the content into separate HTML pages, maintaining consistent styling through CSS, and arranging the project files in a structured folder. I also learned to use Git and GitHub to manage and publish the project source code.

8. Conclusion

The Personal Portfolio Website project provided practical experience in developing a multi-page website using HTML5 and CSS3. It helped me understand how to structure web pages, apply styling, organize project files, test a website in a browser, and publish source code using GitHub. This project also strengthened my foundational web development skills.
